

Regional Capacity Building Workshop for Balkan Countries, Lebanon and Armenia on the Measurement, Reporting and Verification (MRV) and Transparency Framework

FEBRUARY 27TH AND 28TH, 2019
ISTANBUL, TURKEY

- Strengthening Montenegro's national capacities through an improved MRV system to meet transparency related requirements under the Paris agreement (PA)

A. Strengthening active stakeholder engagement and embedding MRV

1.1. Embed a proactive Climate Action Transparency Task Force within WGCC of the National Council

- 1.1.1. Strengthening governance, procedures and technical capacities of the CATFF;
- 1.1.2. A transparency Methodologies, Procedures and Guidelines (MPGs) for tracking NDC;
- 1.1.3. A transparency MPGs for tracking adaptation activities;
- 1.1.4. A transparency MPG for tracking climate finance.

B. Strengthening capacities to implement an enhanced transparency framework

2. Enable national institutions to implement enhanced transparency framework

2.1 Improved capacities related to GHG inventory, projections and mitigation actions

2.2 Capacities of relevant public authorities built for applying MPGs in national adaptation actions (article 15 of MMR)

2.3. Relevant national institutions enabled to mainstream gender into enhanced transparency framework

3. Adopt enhanced coordination and information exchange on the enhanced transparency framework

3.1 Transparency portal strengthened and made fully operative

3.2 Public servants trained to use portal information to support decision-making

3.3. Feedback on project implementation, results and lessons learned shared through Global Coordination Platform

4. A technical draft National LCDS developed in line with enhanced transparency framework
