Country experiences

- Gender component of UNDP NDC support programme includes 10 pilot countries designing and implementing gender-responsive NDCs (Bhutan, Chile, Colombia, Ecuador, Ghana, Kenya, Lebanon, Philippines, Uganda, Zambia); 7 other countries also participating to share experiences
- **Chile:** need to involve the local, regional and national level; focusing on the agricultural, energy, fisheries and educational sectors; facing challenges with regards to gender-disaggregated data; LWPG / GAP were useful instruments to drive and catalyse national implementation
- **Nepal:** 78% of climate budget is either gender sensitive or gender responsive; has included gender-disaggregated data related to the beneficiaries of projects since in 2013; gender and social inclusion is one of the 12 policy areas in new climate policy

Gender references in climate policies per region

Gender in NAPs per region

- African Group
- Asia-Pacific Group
- Latin American and Caribbean Group (GRULAC)

Gender in NDCs per region

- African group
- Asia-Pacific Group
- GRULAC
- Eastern European Group

Gender in NCs per region

- African Group
- Asia-Pacific Group
- GRULAC
- WEDG
- Eastern European Group
